"German Syrup"

J. C. Davis, Rector of St. James' Episcopal Church, Eufaula, Ala.: "My son has been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of Bo-

An Episcopal's German Syrup. I can recom-

mend it without

hesitation." Chronic

severe, deep-seated coughs like this are as severe tests as a remedy can be subjected to. It is for these long-

standing cases that Boschee's Ger-

man Syrup is made a specialty. Many others afflicted as this lad

was, will do well to make a note of this.

J. F. Arnold, Montevideo, Minn., writes: I always use German Syrup for a Cold on the Lungs. I have never found an equal to it—far less a superior.

A MOCKING BIRD'S LESSON.

In a Few Minutes It Learned Some New Sounds But Forgot It's Clever Songs.

"There he goes again!" groaned Mr. George Phalen, a wealthy resident of Highbridge. "Was ever man cursed with such a bird?"

"Bird!" exclaimed Mr. Phalen's visitor in astonishment. "Why, you don't mean to say you keep a bird with all those cats in the house?" For the sudden chorus of hissing, spitting and mewing that floated in from the rear room seemed to indicate that an animated feline argument was in progress there.

"There is no cat under my roof," was the reply. "All the noise you hear is made by a single mocking bird. Just step into the other room and look at him. A more woebegone creature you never saw."

The bird, indeed, looked as though he had seen hard and long service. He had no vestige of a tail left, and one of his eyes was gone. His few feathers were ruffled, and all his sleek and glorious beauty had departed.

"Three years ago old Nick (that is his name) was a remarkably handsome bird," said Mr. Phalen, "and his numerous accomplishments made him a great favorite and very valuable. He could whistle 'The Campbells Are Coming' and a dozen other airs with wonderful clearness and musical precision, and he was so clever that he could learn a new tune in an hour. I would not have sold him then for \$500."

"But one night everybody in the house was awakened by an awful uproar in the back parlor. The mocking bird was shrieking, shouting and swearing like a human being; a cat, that must have entered by the cellar door, for we harbored none of his kind, was spitting and hissing furiously, and the sound of some heavy metallic object dashed frequently and violently against the furniture was distracting. I went down stairs with a light, and I found that the cat's paw was tightly wedged between the wires of the bird's prison, and the terrified brute was swinging the cage about the room, trying to release himself. Old Nick was nearly dead and badly dilapidated, as you see him now, before I could disentangle the cat from the wires and kick him out into the darkness."

"The bird's tail never grew again, nor did his plumage regain its luster. He was quite silent for a full week, and then he suddenly made the air vocal with a horrible series of caterwaulings, and he has kept them up almost without intermission ever since. In the few dreadful minutes that he passed face to face with the cat he learned every intonation of voice that his assailant could teach him, and utterly forgot all the songs and speeches with which years of careful tuition had enriched his mind. A poor exchange, it seems to me."—New York Sun.

Married Loves.

The affectionate man, who sits with his arm on the back of the seat when he rides in the cars with his wife, is always open to the suspicion that somewhere in the recesses of his self esteem he considers himself a sadly henpecked individual, and is excessively attentive to his better half in public places for the simple purpose of side tracking any intimation of such a state of affairs that might be apparent if he didn't do his half of the acting.

But the exquisite wife a friend of mine directed his pretty wife where to go the other day as they parted at a crowded street corner contained no such intimation, inasmuch as he put in the word "dear" wherever he could catch his breath, and concluded with, "Don't forget, dear, to take a car at Park square, dear, and remember that the number is three hundred, dear, and thirty-seven."—Boston Globe.

Sudden.

Presence of mind is not always monopolized by the brave and wise, nor is it uniformly cultivated for great and good purposes.

Several of the pupils in a certain "backwoods" district determined not to study geography. The teacher believed that they were old enough to begin the subject, and accordingly called one of the oldest boys to her desk and spoke to him about the necessity of a knowledge of his own and other countries.

"I sha'n't study geography till I git ready!" growled the youngster.

The teacher rose quickly and seized him by the collar, intending to shake him, when the young rascal hastily added, "But I am ready now!"—Youth's Companion.

A Share in a Jewel.

There is a story told of a French savant who was shown a priceless jewel by a great duke.

"Thank you, my lord duke," said the man of science, "for allowing me to share with you the possession of so great a treasure."

"In what way?" said the duke.

"Why, your grace can do no more than look at it, and you have allowed me to do the same."—All the Year Round.

Spoke Too Quick.

THE NEBRASKA GOVERNORSHIP

Ice Eight Inches Thick in Iowa—Fruit Crops Damaged.

THE PRESIDENT IN OREGON.

Indiana and Michigan—A Valuable Mine Sold—A Colored Men's Convention—Arrested for Murder.

The President in Oregon.

Salem, Or., May 5.—The visit here of the Presidential party was the event of the forenoon. The party arrived at 9 o'clock and remained a little over an hour. It rained nearly all the time and interfered somewhat with the programme.

The local military, G. A. R. post and the people generally, were out in force and gave the distinguished visitors a royal reception. There was a slight delay in the movement of the parade owing to the absence of the Governor, but the Mayor of the city procured a carriage and after a short absence returned with the Governor. These two gentlemen were the first to board the Presidential train. The party were then taken to their carriages and escorted to the State-house by the militia and Sedgwick Post, G. A. R. A large delegation of citizens from Monmouth and Independence joined in the demonstration. The State-house was elaborately decorated. Mayor d'Arcy delivered an address of welcome on behalf of the city and Governor Penney on behalf of the State, to which the President responded at some length.

CHENAWA, Or., May 5.—The citizens' committee headed by George Williams, accompanied the President from Salem to Portland, a short stop was made at Chenawa, where the President reviewed the pupils of the Indian Training School and addressed them, saying that everything he could do to assist them to become industrious citizens would be done.

At Oregon City the President was greeted by the Pioneers and Army Veterans. The Mayor, after an address of welcome, called for three cheers for the President which were given with a will. The President, in returning thanks for the welcome said: "Your State has added another to that succession of kindly greetings which began when we left the National capital. We have come out of the land of irrigation and roses into the land where the Lord takes care of the crops." [Applause and laughter.]

PORTLAND, Or., May 5.—The Presidential party arrived here at noon. All the steamboats in the harbor blew whistles and a salute of 21 guns was fired. The President was introduced to Mayor DeLaunay and the party entered carriages to cross the Morrison street bridge, escorted by the Marine Band, the Sheridan Cavalry Company and the Grand Army, amid the booming of cannon and tooting of whistles. At the other end of the bridge the President was greeted with a mighty cheer from a crowd of 20,000 who awaited him. A heavy rain which began falling did not interfere with the formation of the parade which numbered over four thousand men. After a march of about two hours the procession moved down Sixth street and was reviewed by the President.

In the afternoon there was a general suspension of business. President Harrison held a short reception at the hotel to members of the G. A. R. and Loyal Legion. At four o'clock a cable car decorated with evergreens, bunting and flowers was placed at the disposal of the Presidential party, who were taken to Portland Heights and had pointed out to them different points of interest from that commanding view of the city. Postmaster General Wanamaker paid a visit to the postoffice during the afternoon.

Annual Meeting. Special to the Journal. CHICAGO, May 5.—The annual meeting of the Diamond Plate Glass Co., whose works are at Kokomo, Indiana, and which is controlled by Ohio, Indiana and Illinois capitalists, was held to-day and Col. A. I. Conger of Ohio elected President. The meeting discussed the advisability of establishing a tin plate factory at Elwood, Indiana, but the final decision was postponed for one week. Col. Conger says he and his associates believe if they decide to go into this business there will be no lack of funds to insure its success.

Fruit Crop Damaged. Special to the Journal. CHICAGO, May 5.—Dispatches from points in Indiana and Southern Michigan state that ice formed last night, and much damage was done in the fruit belt.

A Colored Men's Convention.

CINCINNATI, May 5.—The American Citizens Equal Rights Association, composed of colored men, held a convention here to-day. They adopted a series of resolutions affirming the purpose to secure a full and free exercise of every right given them by the constitution. They entered a protest against the efforts of a few so-called leaders of the race to induce the Administration to recognize them to the exclusion of a more progressive class whose aim it is to work in the interest of the whole people. They also called the attention of the organization to the fact that colored men were appointed to office mainly in the South, where the only political service colored men can render is to send delegates to the National Convention, and are denied to those in the Northern States, whose votes are necessary to the success of either party. James M. Townsend of Indiana was elected President.

Ice Eight Inches Thick.

Special to the Journal. WATERLOO, Ia., May 5.—This section was visited by a severe frost last night. Small streams were covered with ice eight inches in thickness. The thermometer registered 28 degrees. Much damage was done to fruit trees which were in full bloom. Small fruits are not injured much, being a little backward. Indications are for another heavy frost to-night.

The Bantam will Fight.

Special to the Journal. SAN FRANCISCO, May 5.—A dispatch was received to-day from George Dixon, the colored bantam, accepting the offer of a \$3,000 purse made by the California Athletic Club last night for a finish contest between Dixon and Abe Willis, to take place in July. Dixon wires that he will leave Boston for this city within the next ten days.

A Valuable Mine.

Special to the Journal. VICTORIA, May 5.—A deposit of \$150,000 has been made in this city as first payment of the total sum of \$1,500,000 offered for the purchase of the Silver King mine on Lead mountain, west of Kootenay. It is understood, however, that the owners will not consider any offer that is not well up in the millions.

Arrested for Murder.

Special to the Journal. MERCED, May 5.—William James has been arrested for the murder of a negro named Tom Gordon, who was found dead yesterday with his throat cut. At first it was supposed that Indians did the deed but the officers think they have proof enough to 'arrest the crime on James.

The Nebraska Governorship.

Special to the Journal. LINCOLN, May 5.—The Supreme Court decided Boyd ineligible as Governor because he is not a citizen, and declares Thayer Governor.

The W. C. T. U. wishes to extend to Professor Bray their heart-felt thanks for his very interesting talk and illustrations on Scientific Temperance Monday evening last at the Baptist Church, also to the ladies who so kindly assisted in songs and recitations, and the public generally who assisted them.

The White Pine News says: "R. A. Rieppe received a check from the Postoffice Department at Washington the other day that he is going to frame and file away among the historical archives of the Reipe family. The check, which is payable on the sub-Treasury in San Francisco, calls for the sum of 1 cent."

The Marquis de Rudini, Premier of Italy, informs the Italian legation at Washington that he does not wish to further discuss the New Orleans incident at present. That ends the Italian war question.

Governor O'Conor will attend the next meeting of the State Board of Agriculture.

The excitement in mining stocks is increasing. Con. Cal. & Va. sold as high as 21 1/2 yesterday. Ophir and Best & Belcher follow in the wake of the leader and show quite an advance.

The Chloride Belt says: A party consisting of R. J. Laws, John Forbes and J. E. Hart of Hawthorne and E. Suman of San Francisco left here yesterday morning in a four-horse rig for Breyfogle.

The Silver State says Alex Wise will shortly commence shipping sulphur from his mines at Rabbit Hole. As sulphur is used to a considerable extent at Dayton in the manufacture of acid Mr. Wise ought to find a home market for his product.

The receipts of cattle at Chicago for April were 211,668, the lightest receipts since March, 1889, and nearly 200,000 less than receipts for October, 1890, about 90,000 less than the monthly average of 1890, and about 50,000 less than the monthly average of 1889.

S. J. Anderson has shown the Silver State a specimen of marble from the deposit which he discovered near Barrett's Springs, west of Winnemucca. The stone is slightly darker than Italian marble and when first taken out can be cut with a pocket knife though it soon hardens. It would undoubtedly make fine building material and the quantity is unlimited.

CHICAGO LIVE STOCK MARKET.

Receipts Much Lighter, and a Slight Advance in Prices.

The Chicago Live Stock Report of last Friday says of

DEER CATTLE.

The receipts for the week show a liberal falling off, and are over 20,000 head less than for the corresponding week in 1890.

Thursday's receipts of 9,000 were below expectations. The market opened strong, and values were marked up 10 to 15 cents per 100 lbs. on all grades. To-day, with 9,000 on sale, the market opened weak.

The greatest advance has been on the handy 1,100 to 1,400 lb. heaves; values for such show a gain of 25 to 30 cents per 100 lbs., while heavy export grades are only 10 to 25 cents per 100 lbs. higher than Monday.

Rough steers of all weights have made but little advance. Foreign markets have advanced 1 cent per lb. for good heaves, and the shipments for the week show a slight increase. Should foreign markets hold up, an increased demand for heavy steers may be expected, as freights have been reduced, leaving a small margin of profit to the shipper at present prices.

The quality of the receipts was only fair, very few extra choice steers being on sale. Following are the prices quoted:

Extra prime steers.....\$6 15@6 40
Exporters, 1,450 to 1,600 lbs.
average.....5 60 6 00
Export steers, heavy, 1,450 to 1,600 lbs., lacking quality.....5 40 5 70

Good dressed beef and shipping steers, 1,150 to 1,400 lbs.....5 15 6 00
Fair to medium steers, 1,150 to 1,400 lbs.....4 10 5 00
Common to fair steers, 900 to 1,150 lbs.....3 65 4 25
Good cows and heifers.....3 75 4 50

SHEEP.

Supplies this week, although liberal, have no more than equaled the demand. The market has ruled strong from start to finish, and values for good grades have advanced 20 to 35 cents per 100 lbs. Eastern shippers have been free buyers, consequently home buyers were obliged to bid up in order to obtain their needed supplies.

Handy, light grades weighing 80 to 100 lbs. sold best, heavy grades, both woolen and shorn, being somewhat discriminated against. Lambs were in moderate supply; demand good. The bulk of the offerings changed hands at 7 cents, and some choice grades at \$7 30 per 100 lbs., the highest prices of the season. Some choice Spring lambs arrived and sold at \$4 50 per head, or about 9 cents per lb.

We quote:
Good Natives and Westerns.....\$5 15@5 40
Good to choice Texas.....4 40 5 05
Common.....3 25 4 05
Common to choice lambs.....6 00 7 40

Thatcher's Minstrels.

George Thatcher, the celebrated, and his famous band of minstrels will appear at McKiesick's Opera House next Sunday evening, May 10th. Their programme is a generous and meritorious one. The opening scene represents the royal court of Spain, with the members of the troupe clad in the costumes of courtiers of the highest rank. Remarkably good singing is heard in this sumptuous scene. Thomas Lewis' rich baritone voice is heard to rare advantage in his rendering of "The Ship that Carries Me Home." Raymon Moore revives with new effects the old song "Katie Darling." H. W. Frillman, the basso profundo, executes "The Lost Chord" in fine style. R. J. Jose, silvery tenor, reveals new beauties in the pathetic song, "The Lone Grave." Funny dialogues between Thatcher and Burt Shepard, comical ditties by Thos. La Mack and eccentric dancing by John A. Coleman impart a humorous variety to the first part.

The bill is continued with characteristic monologues by George Thatcher. Curious feats on the slack wire by Frank La Mondue. A grand miscellaneous concert, in which Wood and Shepard are a full brass band and orchestra. All the members of the company appear in the musical ballets. "The Fete of the Gondoliers," a festival that takes place under the light of the moon in Venice the beautiful.

Guards' Athletic Club.

Though it is not generally known, probably because of the modesty of the principals, there is an organization in Reno, known as the Guards' Athletic Club. It is composed of men and boys, and its object is physical culture. The club intends giving an exhibition on the 22d instant at the Pavilion, when the public will be afforded opportunity to see their various feats of strength and agility. At the close of the exhibition there will be a social dance in which all are invited to participate. The price of admission is only 50 cents.

Stock in Eastern Nevada.

The Virginia Chronicle says: S. B. Dazet returned Monday from a trip to the Sun Creek cattle range, 65 miles from Wells, Elko county. He reports the cattle in that region doing well. Last Winter not a hoof of stock had to be fed and not a head was lost, and at this time cattle are rolling fat. The Sun Creek Live Stock Company has sufficient hay from last year's crop to last until snow flies, the past year's yield being far more than necessary for all needs. A prosperous season on the range is anticipated.

District Court.

A session of the District Court was held yesterday, Judge Cheney presiding.

Robert Quigley, indicted for burglary, pleaded guilty as charged and will be sentenced at 10 o'clock to-day. Thomas H. Horn, indicted for robbery, pleaded not guilty and his trial was set for July 13th. Arguments of counsel were made on motions in the cases of Public Administrator Peers vs. Mrs. Lee and R. S. Gammons.

Electricity Catches Elephants.

A novel application of electricity has recently been made in elephant catching. At a recent capture of forty of these animals, when the last of their unwieldy bodies had passed the entrance into the Khedda, the signal for barring their exit was given, instantaneously and without a word spoken, by means of an electric wire. It is only a short time since petroleum superseded native vegetable oils for lighting throughout the bazars and villages of India. Electricity is now taking the place both of petroleum or coal gas in the great spinning factories, for which it is peculiarly suited in a hot climate, owing to its coolness and absence of smell.—Philadelphia Ledger.

A Sarcasitic Jehu.

For downright sarcasm as to the merits of a horse, recommend us to the worthy Jehu who offered a little advice to a driver of a pirate 'bus, one of whose horses tumbled down the other day in the Strand.

The horse, after strenuous efforts, had been got on its feet, when immediately it fell over again on its side.

"I say, old 'un," cried the rival driver, "you must 'ave got 'im out o' bed too early this mornin'." Run round to our stable and they'll lend yer a pitchfork to turn 'im over with.—London Tit-Bits.

Sitting Bull's Prophetic Dream.

One Bull, a nephew of the dead chieftain, related an interesting incident that happened just the day before Sitting Bull was killed. He said Sitting Bull that day climbed to the top of one of the highest neighboring buttes, where he fell asleep, and dreamed of the startling tragedy that would happen the next day. He came down and told his people that their great medicine man would be killed on the morrow. How true his words were was attested by developments the next morning.—Cor. St. Paul Globe.

This Can Be Done on Nearly Every Farm.

Given a flow of 100 gallons of water per minute and plenty of liver and scraps thrown in, and you can raise 1,000 pounds of trout in a pond 10 feet deep, 10 feet long and ten feet broad, replacing them with small ones as rapidly as they reach marketable size. It can be done very profitably too. The time is looked forward to, and it is not far away, when every farmer will look upon an acre of water as he does upon an acre of land, expecting so much yearly yield from it, whether it is pond, lake, river or estuary.—Washington Star.

A Dreadful Threat.

A poet having loaned a small amount to a friend found it very difficult to collect the same, as his friend failed to recollect the incident. Meeting his friend in need the poet said:

"If you don't pay me that \$17 which you owe me I shall have to resort to extreme measures."

"And what may they be?"

"I'll dedicate my next poem in your honor."

The friend turned pale and shelled out abruptly.—Texas Siftings.

A Large Difference.

"What was your lawyer's fee in that case, Dimling?"

"It wasn't a fee, Totling; it was an honorarium."

"What's the difference?"

"Well, an honorarium is about ten times as much as a fee."—Harper's Bazar.

Pity the Blind.

A blind man who plays sacred music upon an accordion is perambulating the streets of Windsor. His affliction attracted some time ago the attention of her majesty the queen, who while taking a drive saw him in the street and compassionately gave him a gratuity. He now bears upon his breast a placard with the rather ambiguously worded inscription:

"Blind from inflammation. Assisted by her majesty the queen."—London Tit-Bits.

Workmen are just finishing what is claimed will be the longest board fence in the country. It surrounds J. O. Stayvessant's new deer park at Tranquillity, N. J., and will be when completed twelve miles long. The sawmill at Allamuchy has been running continually cutting out the boards. The fence is ten feet high, and is made of hemlock an inch and a half thick. It will cost \$20,000.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring-time or, in fact, at any time, and the better it is known the more popular it becomes.

Those who contemplate renovating their houses should not forget the immense stock of wall paper at the store of the Reno Mill and Lumber Co., on Second street, next door to the Postoffice.

Internal Revenue Matters.

The Chronicle says: Chas. W. Lawrence, principal Internal Revenue Agent for the district embracing California, Oregon, Washington, Alaska, Nevada and Utah, accompanied by a deputy and U. S. Gauger, are looking into internal revenue matters in Virginia in the interest of the Government. Their examinations of establishments coming under their supervision are searching and thorough.

A man who has practiced medicine for 40 years, ought to know salt from sugar; read what he says:

Toledo, O., Jan. 10, 1887.

Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions. Yours truly,

L. L. GORSUCH, M. D.,
Office, 215 Summit St.,

We will give \$100 for any case of catarrh that cannot be cured with Hall's Catarrh Cure. Taken internally.
